HAIS Response Date 6/30/95

The Data Server will store L0 data and/or L1A data as appropriate for each instrument in conjunction with associated metadata. If the data is resident in the Data Server it is advertised as available and can be distributed. It is our understanding that L0 and/or L1A data will not be requested for distribution except in extraordinary circumstances.

Requirements S-DSS-01950 & S-DSS-01960 provide for the distribution of data and metadata to the production subsystem. Requirements S-DSS-04035 & S-DSS-04037 provide for the distribution of all data products and associated metadata by instrument (Appendix F - Data Type Matrix). This includes all data available for distribution (i.e. L0 or L1A as appropriate.)
